Response to Election/Restriction

1. Applicant's election with traverse of Group II, Specie C, claims 78, 79 and 102-111, in Paper No. 8 is acknowledged. The traversal is on the ground(s) that the process for using the product as claimed is practiced using a luminal prosthesis containing medical substance, as both product and process claims recite the use of a substance or pharmacological. This is not found persuasive because the substance in the product is release using a scaffold while the method require the substance be release using a barrier limiting material as is claimed in claim 78.

The requirement is still deemed proper and is therefore made FINAL.

Claim Objections

2. Claims 106, 109 and 110 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

3. Claims 103-105 are objected to because of the following informalities: in claims 103-105, the claims read "A method as in any of claims 102". The claim language should read as, "A method as in claim 102". Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

Art Unit: 3738

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

5. Claims 78, 79, 102-105, 107, 108 and 111 rejected under 35 U.S.C. 102(e) as being anticipated by Ragheb (U.S. Patent 6,299,604).

Ragheb disclose a coated implantable medical device (10) comprising a bioactive layer (18) and limiting barrier (20) as is claimed (figures 1-5 and 8-12, column 6 lines 41-67, column 7 lines 15-54, column 8 lines 6-20, column 9 lines 27-67, column 10 lines 1-55, column 11 lines 5-24 and 44-59, column 12 lines 1-33 and 53-67, column 13 lines 1-52, column 14 lines 56-67, column 22 lines 19-51 and 60-67 and column 23 lines 1-34).
